***Dr. Isaac and Wendy Schaeffer penned a must-read guidebook for couples, counselors and clergy providing help to distressed relationships.***

This book is about intimacy, the human need for relationship, and the love of God. It covers the issues of commitment, affection, emotional and spiritual bonding, ecstasy and sacred trust. The book also seeks to explain the substance of what makes up sensuality and sexuality. This book will help you make sense of your experiences in romance, dating, marriage and everyday interactions as it describes these through the eyes of life and faith.

The bond described in this book is a spiritually intimate one. The authors offer real and practical solutions for anyone who is experiencing distressed intimacy, and those who find themselves in the middle of emotional upheaval, as a result of their relationships with others and God.

The book gives hope and tools to save people's most important relationship, their collective intimacy.
